TECHNICAL PROJECTS

Web-Based Chat Application- GitHub: github.com/Tochard/Web-Based-Chat-Application | Live Site: https://web-based-chat-application-1.herokuapp.com/
A chat web application allows signed up users to message each other.
- Used MySQL, SQL and PhpMyadmin to create a database in the backend.
- Used Ajax to get data from the database.
- Used php time function and session to automatically logout idle users.
- Engineered controlled forms for user login, sign-up, user recommendations and feedback messages.
- Used CSS for styling.
- Deployed with Heroku.

Courier Website - GitHub: github.com/Tochard/Courier-Website | Live Site: https://courier-website-1.herokuapp.com/
A courier website where admin can register packages for delivery and clients using a unique tracking ID can track their package.
- Used MySQL, SQL and PhpMyadmin to create a database in the backend.
- Used php uniqid function to generate tracking ID.
- Used CSS for styling.
- Deployed with Heroku.

Simple Shopping Cart - GitHub: github.com/Tochard/Simple-Shopping-Cart
A simple shopping cart, it has a simple admin dashboard to add items . It also allows users to add products to their cart for processing and payments.
- Used MySQL, SQL and PhpMyadmin to create a database in the backend.
- Used Php session function to display the number of items in the cart.
- Used CSS for styling.

PROFESSIONAL EXPERIENCE

- Applied computer science data structures and algorithms to solve computational problems ensuring the data flow within a finite amount of space and time.
- Gained hands-on experience with PHP, JavaScript, CSS, HTML, MySQL and tech principles whilst working on team/individual projects, code reviews, and pair programming sessions.

EDUCATION

Nnamdi Azikiwe University   Anambra State, Nigeria
Undergraduate (Mechanical Engineering)   Expected Graduation: December, 2022
